Life and Landscape: Route 66 in New Mexico is on display at The Center for Southwest Research and Special Collections at UNM Zimmerman Library. This historic exhibit presents Route 66 as a living archive and corridor of memory, resilience, and community that continues to foster New Mexico's cultural landscape.

Suzanne Schadl, Director, will guide us through a visual experience which includes Route 66, Albuquerque history, Native communities, regional landscapes and historic New Mexico photographs.

Space is limited and we will break into smaller groups for viewing.

Note: This event is during Fall Semester break, so finding available parking should not be an issue.
